THE REGIONAL CARE NETWORK: EVERYDAY HEROES

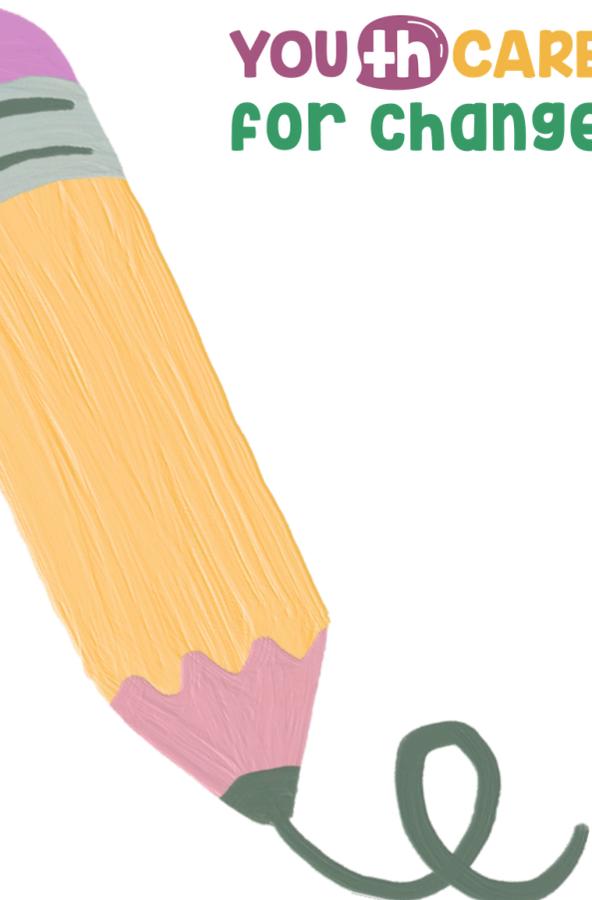

This project builds on a previously supported initiative by the Czech Ministry of Labour and Social Affairs, which focused on exploring social innovation in the context of the Broumov and Policko regions – rural areas facing significant challenges as transport isolation, low attractiveness for young people, brain drain, low education and high unemployment rate.

In 2024-25, an empathetic mapping phase was conducted through sociological research focused on the Policko region.

SCHOOL FOR COMMUNAL RESPONSIBILITY

This project develops transformative justice (TJ) practices within and in collaboration with activist collectives in the Czech Republic with the aim to strengthen infrastructures of mutual care, skills for conflict resolution and intersectional thinking and acting.

TJ fosters community care and accountability through encouragement of active participation, building skills to navigate and address interpersonal harm and creating safe and more courageous spaces.
