# THE CARE NETWORK

**Creating Accessible Regenerative Environments**

A response to spatial injustices, proposing a transformative intervention grounded in community care, inclusion and intersectional solidarity.

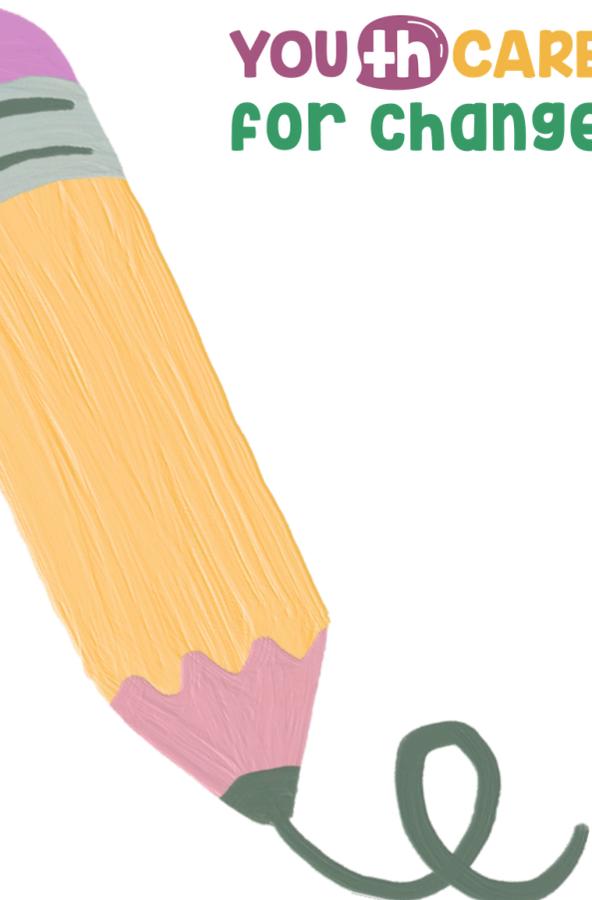

The objective? Reactivating local community spaces as safe, intersectional hubs of activism and solidarity.

At the heart of this initiative is the creation of a CARE Network, a shared and itinerant meeting space hosted throughout Florence.

# KÒRA

The project aims to reach individuals who are currently outside the usual field of action, breaking the so-called “activist bubble” and engaging new audiences with the concept and daily practice of intersectionality.

# URBAN ECOLOGIES

Care Pathways for Young People and the Local Area

This Youth initiative proposes the regeneration of Terra Franca, a confiscated mafia land in the Cruillas neighborhood of Palermo, transforming it into a vibrant, youth-led hub for ecological education, community building, and permaculture-based action.

It directly engages young people aged 16–30, especially those in marginalized urban areas like Cruillas.
