BOOSTREADING

BoostReading is a youth-led project designed by young people for young people. Its mission is to make reading more accessible, engaging, and motivating through speed reading techniques, digital tools, and a collective approach. Grounded in the values of CARE, the project fosters self-confidence, inclusion, and mutual support, while developing essential social, cultural, emotional, and educational skills.

MINDFUEL

 This project aims to promote the mental health of young people by providing them with the resources and support they need to thrive and reach their full potential in daily life and in their journey toward adulthood. Our main objective is to organize a series of interactive workshops focused on stress and emotion management.

In addition to the workshops, we will create podcasts to raise awareness among young people on social media, combat the stigma surrounding mental health issues, and encourage open dialogue on the subject.
