## **SAFE SPACE WORKSHOPS**

Safe Space is a role-playing game and workshop model project, grounded in the evidence-based Active Bystander protocol. Through facilitated sessions, students confront real-life scenarios involving emotional, social, and digital dimensions of identity-based harm.

Our goal is to reach over 1,000 young people with meaningful, actionable learning that helps them prevent violence and build networks of care and inclusion.

## **DE-GENDERING LOVE: FREEING RELATIONSHIPS OF GENDERED NORMS**

The main goal of this project is to raise awareness about the need for more egalitarian relationships and apply feminist principles on issues that directly affect young people's lives. We aim to critically examine and challenge the pressures faced by women and queer people, with a special focus on romantic relationships, as an area where rigid gendered norms and expectations tend to be most articulated and the pressures most salient
