

# YOUTH CARE AGENDA

## SPAIN

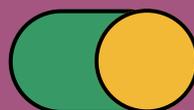

### COUNTRY BASED PRIORITIES

CLIMATE CHANGE: ECO-DEPENDENCE, DECREASE, RURAL LIFE

INTERSECTIONALITY: ANTIRACISM AND GENDER EQUALITY

INTERGENERATIONAL COMMUNICATION: "THE REVOLUTION OF AFFECTIONS" -CARE, SOCIALIZATION OF CARE

*by Madrid Outdoor  
Education*

## **PURNA**

The Purna project aims to promote a collaborative process that fosters the culture of care and the importance of participating in the community among adolescents from different educational centers in Madrid and Aragon.

We want to achieve this purpose through our work methodology, outdoor education and experiential learning in nature, which has proven to be both an attractive tool for youth and beneficial in their psychosocial development.

YOU  CARE  
FOR CHANGE

**PURNA**

## QUEER LIVES ON STAGE

This is a dynamic social-artistic initiative aimed at shining a light on the realities and needs of the LGBTIQ+ community through collaborative learning and theatre. We want to build a sustainable support network that emphasizes caring for one another and for society as a whole.

The project hopes to raise awareness, spark critical conversations, and work together to fight the invisibility and marginalization of queer lives.

## **LAB ON ROAD - LABORATORIOS FOTOGRAFICOS DE DENUNCIA ECO-SOCIAL EN TERRITORIOS RURALES**

LAB ON ROAD includes a 5-day training in documentary photography with an eco-social lens, followed by a 5-month mentoring process in which participants develop personal photo projects that reflect environmental and social struggles in their territories.

These works will be shared through public exhibitions and a digital platform, increasing visibility and fostering dialogue on rural justice and care.
