EVALUATION GRID

Co-funded by the European Union (Ref: NDICI CHALLENGE/2023/448-254)

1. EVALUATION CRITERIA AND SCORING

Criteria	Description	Max. Score
Alignment with the Care Approach	The project proposal clearly integrates the Care Approach, focusing on interdependence for the transformative community building, prioritising people before profit, and assuring intersectionality, anti patriarchalism, anti fascism, and collective well-being (care glossary available in the call for proposals).	15
Alignment with the YOU(th) CARE Agendas	The project proposal clearly refers to the country-based priorities coming out to the territories YOU(th) CARE agendas (priorities available in the call for proposals).	15
Connection to other CARE Actions	The project proposal connects with CARE Actions linked to the YOU(th) CARE project; it can represent a possibility for continuity and upcycling; it is linked with other sub-granted actions (previous & current).	5
Commitment to Intersectionality	The project aligns with intersectional values, promoting inclusivity, gender equality, and social justice. It acknowledges and addresses multiple forms of discrimination, ensuring diverse and marginalized voices are included.	15
Feasibility and Impact	The project is realistic, well-structured, it has a clear logic of intervention and a clear impact on the target audience and community. It presents clear goals, measurable outcomes, and	25

	a meaningful impact on the target audience and community.	
Innovation and Creativity	The proposal presents innovative and creative solutions to address the identified needs. It introduces new methodologies, tools, or perspectives that enhance its effectiveness and engagement.	10
Budget and Resource Allocation	The budget is clear, realistic, and aligns with the project goals. Resource allocation is justified and demonstrates efficient financial planning.	15
